iskon-Creating group Norms-prevent bullying in form and ethics classes, work at the conference iskon 9-11 age

kivaprogram.net-how to handle conflicts, solve and prevent conflicts 9-12 age

It is compulsory to put the information of the project on the school site

The Turkish school will prepare the official website of the project. All partners will send to the Turkish partner all information

We have to tell the number of students involved in the project. There should be involved as many students as possible.

Distribution of work load:

1.Hungary: economic plans, plans, help partners, collect information, responsible for the implementation

2. Cyprus-Collection of People and Emotions

We work together on a climate questionnaire and at the end of the project we see the results.

The evaluation will be done by each school by themselves.

3. Italy-edit an international calendar entitled Nice Professions

In the meeting we have to share information on our day of Success in a profession orientation, what are the professions. Every school will organize a day for professions.

4. Romania-effective learning methods in a booklet, with contact information, descriptions, experiences in different languages. It will include material of self-understanding training, the tests and the sample Europass CV-s.

There will be a specialist to teach u show to complete a europass cv, and the Romanians will ask it for the national agency.

Romania makes a model that will go to all countries.

5. Turkey-website, blog
